Day 3

Afternoon Archaeological Bike Tour

If you are interested in history, archaeology and spirituality, this bike tour on the motu Onetahi is the one for you! Accompanied by a guide from Tetiaroa Society, take a bike to discover Polynesian culture through a sacred site: a Polynesian temple. The naturalist guide will explain to you the symbolism of these places, how they were built, and their usefulness to Polynesians.

Day 4

Half Day Ultimate Motus Tour

Discover the treasures hidden on the atoll of Tetiaroa with a naturalist guide from Tetiaroa Society's foundation during your excursion. A boat ride will bring you closer to the motus location on the east and north side. Here, you will explore the richness of their various ecosystems which encompass primary forest, numerous species of birds, bee hives and more!

Day 5

Enjoy a Day at Leisure

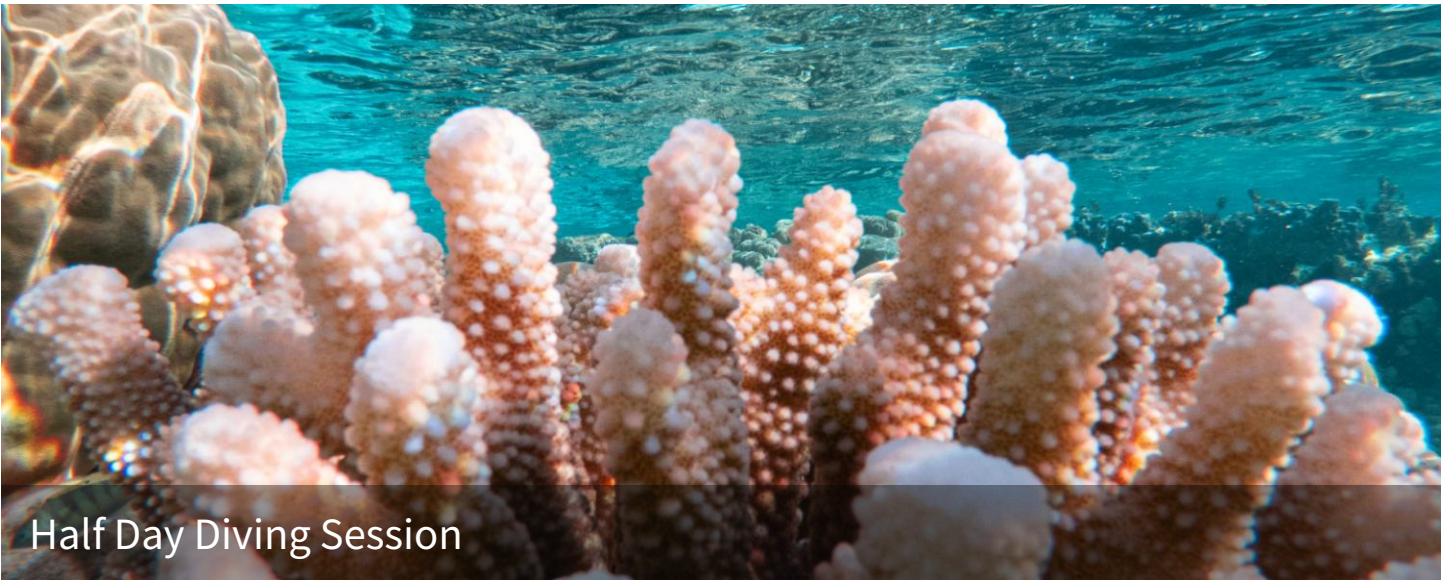

Day 6

Afternoon Bird Discovery Tour

Tetiaroa is a special place for sea bird nesting and also a privileged observation place for ornithologists. Accompanied by the naturalists of the Tetiaroa Society's foundation, you will participate in collecting data on boobies, terns, noddies or egrets. You will discover the ornithological richness of the atoll of Tetiaroa during your excursion to various sites.

Day 7

Half Day Diving Session

Enjoy a half day of diving in the beautiful Tetiaroa, which remains a sanctuary untouched by human hands. Embraced by crystal clear waters where coral and vegetation thrive in a spectacle of natural beauty, the atoll's biodiversity is unmatched, hosting an array of marine life coexisting as intended by nature.

Day 8

Afternoon Eco-Friendly Green Tour

The journey unveils the myriad ways in which The Brando harmonizes luxury with ecological responsibility: sea water air conditioning system (SWAC) providing a cool sanctuary within the villas, verdant organic gardens yield fresh produce that graces the tables of the resort's dining establishments. An array of solar panels captures the sun's energy, powering the resort with a sustainable pulse. This immersive tour showcases the resort's dedication to sustainable practices, revealing how each element contributes to a larger vision of luxury and conservation intertwined, setting a precedent for future endeavors in the luxury resort sphere. The grand finale is the Research Station, a nucleus of exploration and learning, serving as a beacon for sustainability in action within the resort's ecosystem. It is in this place where Tetiaroa Society spearheads research and scientific studies, transforming these endeavors into tangible realities.

Day 9
