Day 1

Welcome to Lisbon

Lisbon sprawls along the banks of the Tagus River estuary. Its name comes from the Phoenician meaning "enchanted port." From the city's hills, you can look toward the River and the Atlantic where the Portuguese inaugurated the Age of Discovery, which led them to the New World and many important ports in the East. The low-lying areas of the city were rebuilt after the destructive Great Earthquake of 1755, but in recent times, Lisbon has come to life with newfound trendy energy. Travel writers are running out of superlatives to describe this once-sleepy capital on the Atlantic coast, where history and tradition coalesce with contemporary chic and style.

The River Douro rises in Spain and flows more or less East / West across Northern Portugal reaching the sea at Portugal's second city, Porto. Once a fast-flowing river of rapids and narrow ravines, it has been tamed over the past 25 years by the construction of 8 dams along its length giving it, in most places, a tranquil, lake-like appearance. The valley is spectacularly beautiful with the hills falling steeply down to the water's edge becoming more and more sparsely populated and wild the further inland one travels, with more of the land being given over to terraces of vines and, to a lesser extent, olive groves.

Start by visiting a small olive-oil mill before heading down through a local vineyard, where only a few are allowed. Through our local contacts, you'll have insider access, walking through the vineyard where other tourists are not allowed to go. As you make your way down the valley, you'll learn about what makes this wine region so unique.
